

PORTABLE APPLIANCE TESTING & RECORDING (CITY & GUILDS 2377-02 – THIS QUALIFICATION IS OPTIONAL)

Who would benefit from this course?

Students preparing for the City & Guilds 2377 exam; electricians; maintenance staff and caretakers, as well as managers with health & safety responsibilities in the UK.

What will be included in the course?

- State their responsibility relating to Electricity at Work Regulations 1989
- Identify the hazards and risks associated with the use of electricity
- Select appropriate tests for the range of portable appliances
- Visually inspect equipment to identify faults
- Determine fuse size from equipment to identify faults
- Carry out tests on equipment as appropriate
- Record procedures, test results and frequency of tests
- Produce action plan
- Classification of equipment
- Visual inspection
- Use of power equation
- Continuity, insulation, earth bond, function and flash testing
- Protective action during all tests
- PAT Testers
- Practical and written competency tests
- City & Guilds exam (optional)

What can I expect my delegates/company to gain from attending?

- Delegates will learn how to draw up procedures for portable appliance testing
- Will learn how to use a portable appliance tester on equipment and visually determine its safe continued use
- Will learn how to record the results of what they have tested
- External PAT Testing costs will be relinquished

In what training style will this course be delivered?

This course will be delivered via a tutor led presentation, practical “hands on” experience, group discussions and exam techniques.

What if I want the course to be specific to our needs?

We prefer to customise all our courses to suit the client, as we recognise the individuality of every organisation. An informal discussion to assess your needs can be arranged at your convenience at your premises or if you prefer via telephone. **Please be aware that public courses will remain generic to suit a varied clientele but we will be happy to add any specifics that you wish to be included, providing our other clients are comfortable with this.**

How long will the training last?

This course is delivered in one day.

We haven't purchased a PAT tester yet, what are our options?

Our trainer is happy to discuss your requirements with you to give you enough information so that you can decide for yourself what type of PAT tester you would need for the work that you are going to carry out. RS Components stock a wide range of PAT testers and these can be viewed at rswww.com.

How will you measure the effectiveness of the training you have delivered to my delegates?

Our trainer will be continuously assessing your delegates throughout the session. An evaluation form will be provided on the course which will give delegates the opportunity to evaluate both the course and how they felt they have developed during the course. The evaluations forms are available to you on request. There will be a test and/or a City & Guilds examination. The City & Guilds exam is optional and there are additional costs involved.

What does the exam entail?

The exam is a 1 hour online assessment which will be arranged to suit the delegates. It consists of 30 multiple choice questions and involves a very basic knowledge of computer use. There is a tutorial prior to the actual exam that will familiarise delegates with computer use.

Will my delegates receive certificates for this course?

Delegates will receive a Training Solutions 2000 certificate of competence outlining what was delivered during the course. Delegates who opt for the City & Guilds qualification will receive a City & Guilds certificate if they successfully pass the online examination. If they are unsuccessful they will receive a competence at tutor discretion.

What customer care can I expect from Training Solutions 2000?

Training Solutions 2000 are available from 9.00 – 5.00 on weekdays to discuss anything relating to the course you have booked before, during and after it has been delivered.

How do I book this course?

Please contact the customer service team on 01685 371500
