FORKLIFT TRUCK NOVICE COUNTERBALANCE & REACH CONVERSION TRUCK

Introduction:

This practical programme has been designed for the prospective Fork Lift Truck operators who have little or no experience. The programme is approved by R.T.I.T.B and fully complies with the approved code of practice for the training of Fork Lift Truck operators (April 1989)

Objective:

To enable participants to acquire the skills and knowledge needed to operate Fork Trucks safely and efficiently and to take the R.T.I.T.B driving test. To understand the implications under the Health & Safety at Work Act 1974, the Factories Act 1961 or the Construction Lifting Requirements 1961

Programme Synopsis:

- In-house company codes of practice
- Identify, describe and explain the principle components
- Understand the terminology used and the features affecting the stability and capability of the machine
- Carry out pre-use safety inspection and perform daily maintenance checks as recommended by the machine manufacturer
- Identify safe terrain conditions and operate within the design limits of the machine
- Understand the safe loading of the machine and be able to assess the weight pf the loads handled if applicable
- Understand operator safety code
- Operate and manoeuvre F.L.T in confined spaces
- Stack pallets and stillages
- Carry out bulk stacking
- Load and unload transport safely (if applicable)

Duration	Seven (7) Days
Course Code	TSCFLTRC
Certification	RTITB
