

ABRASIVE WHEEL SAFETY (Half Day) (PUWER 98) – Portable Grinders

Introduction:

Abrasive wheels are used in many areas and can be highly dangerous if handled by untrained personnel. The law requires that anyone involved in mounting, dressing or setting abrasive wheels is trained and certified. This half-day is only suited to personnel who will be using portable grinders.

Objective:

To provide delegates with the opportunity to acquire the skills and knowledge needed to safely mount, dress, set and use abrasive wheels in compliance with current legislation.

Programme Synopsis

- Safety and legislative requirements
- Safe use of abrasive wheels
- Mounting abrasive wheels
- Hazards and precautionary measures
- Identification of wheels by types, speed, grade and composition
- Storing, handling and transporting abrasive wheels

Duration: Half Day

Course Code: TSCAW½

Certification: Training Solutions 2000

ABRASIVE WHEEL SAFETY (Full Day) (PUWER 98) – Pedestal Grinders

Introduction:

Abrasive wheels are used in many areas and can be highly dangerous if handled by untrained personnel. The law requires that anyone involved in mounting, dressing or setting abrasive wheels is trained and certified.

Objective:

To provide delegates with the opportunity to acquire the skills and knowledge needed to safely mount, dress, set and use abrasive wheels in compliance with current legislation.
